CERTIFICATION RoHS and REACH-SVHC

The O-Ring Store represents that all rubber products are in conformance with applicable provisions of the regulations known as the REACH Candidate List (EC 1907/2006) published 20 June, 2016 the REACH Authorisation List (Annex XIV) published 11 January 2016, and the REACH Restricted List (Annex XVII) published 22 June, 2009.

Exceptions: The O-Ring Store is submitting the following statement for full disclosure:

- Some EPDM compounds molded prior to 02/10/2014 will contain CAS# 96-45-7 Ethylene Thiourea which is considered reportable
- All other compounds do not contain any elements noted as Substances of Very High Concern (SVHC) candidate list dated 06/20/2016 as an active ingredient.

(These products should not be exported to the European Union without the appropriate declarations)

We also certify that to the best of our knowledge these O-Rings do not contain any chemicals cited under California Prop 65.

All rubber compounds are compliant to RoHS directive 2011/65/EU dated 08 June 2011 and do not contain any of the following as ingredients:

Lead
Mercury
Cadmium
Hexavalent Chromium
Polybrominated biphenyls (PBB)
Polybrominated diphenyl ethers (PBDE)

We appreciate your business and look forward to working with you on a long-term basis. Satisfied customers are our best advertisement, so I encourage you to give us feedback on how we're doing.
